Don't Miss this Historic Event in Shanghai, China!

December 11–13, 2008

Shanghai International Convention Center

Hotel accommodations at the 5-star Oriental Riverside Hotel

In a meeting guaranteed to provide a historic educational interaction, the leading cardiovascular experts from America and China will converge for the first time to discuss similarities and differences in the Eastern and Western approaches to cardiovascular care. Cardiac and vascular surgical experts will define the state of the art in their respective countries and offer their perspective on controversial issues and future developments. An entire conference segment will be dedicated to simulator training for a variety of endovascular techniques, including stent grafting, coronary angioplasty, carotid stenting, percutaneous cardiac valve placement, and others.

Shanghai, the citadel of China's modern economy, will play host to this momentous meeting. Discover its hidden depths, taste its food, and meet its warm and welcoming people.
