

INVITATION **April 7-8, 2011**

AORTIC VALVE REPAIR : A STEP BY STEP APPROACH

Dear Colleagues,

We are pleased to invite you to this two day session. Program will focus on interactive lectures from international faculty, enriched with live and video cases. Aim of the session is to propose a standardized management of dystrophic aortic roots, from echo analysis to a physiological approach, in aortic valve repair. We look forward to sharing our collective experience in this evolving field.
