

Blood Conservation in Cardiac Surgery - a Practical Approach

Friday 18th September 2009

9:00am - 5:00pm

Lecture Theatre, Papworth Hospital, Cambridge

- Interactive debate: **"Is blood bad?"**
- Cell salvage: How, when and why
- Surgical techniques: Just more stitches?
- Protocol and audit: Why bother?
- New drugs: What can I use now Aprotinin is gone?
- Quiz: How much do you know? (prizes)

Trainees poster presentations: Abstracts on the subject of blood conservation may be submitted to Andrew.Klein@papworth.nhs.uk by 1st August 2009

This meeting is aimed at everyone working in cardiac surgery, especially surgeons, anaesthetists and perfusionists. It will appeal to trainees as well as qualified people, and the emphasis will be on using scientific knowledge to alter working practices, with a view to reducing the use of bank blood.

From Dr Andrew Klein and Mrs Catherine Sudarshan

Registration fee: Consultants £100, SpRs and non-medical staff £50

CPD approved
